

1-CREATE SSRC

Create SuperSource composition to your demands in ATEM Desktop Software

1-CREATE DVEK

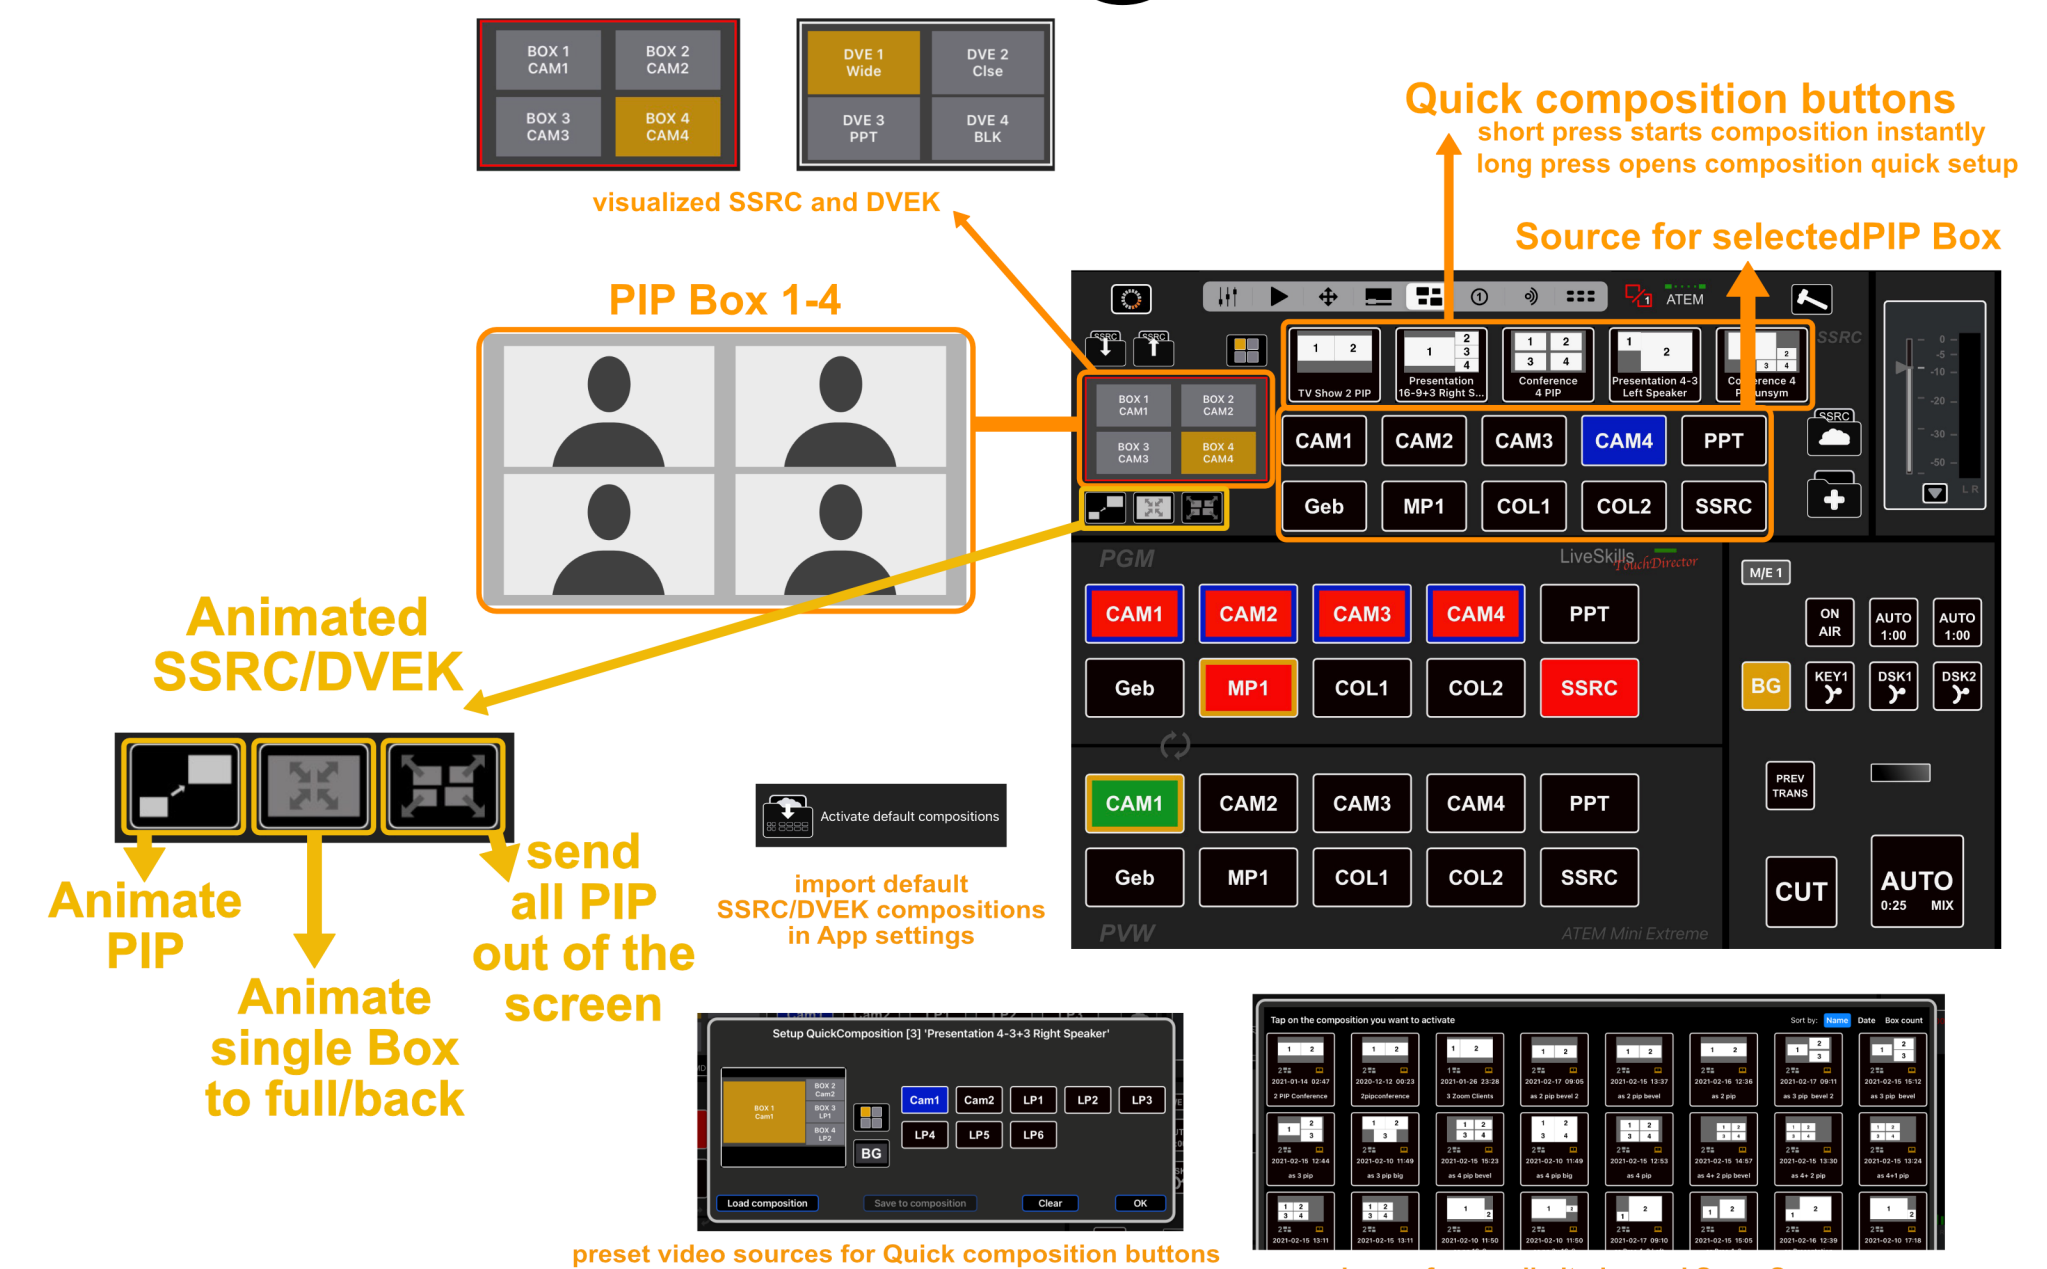

Create DVE Key (DVEK) 1 - 4 composition to your demands in ATEM Desktop Software

number of your available DVEs depends on your ATEM model

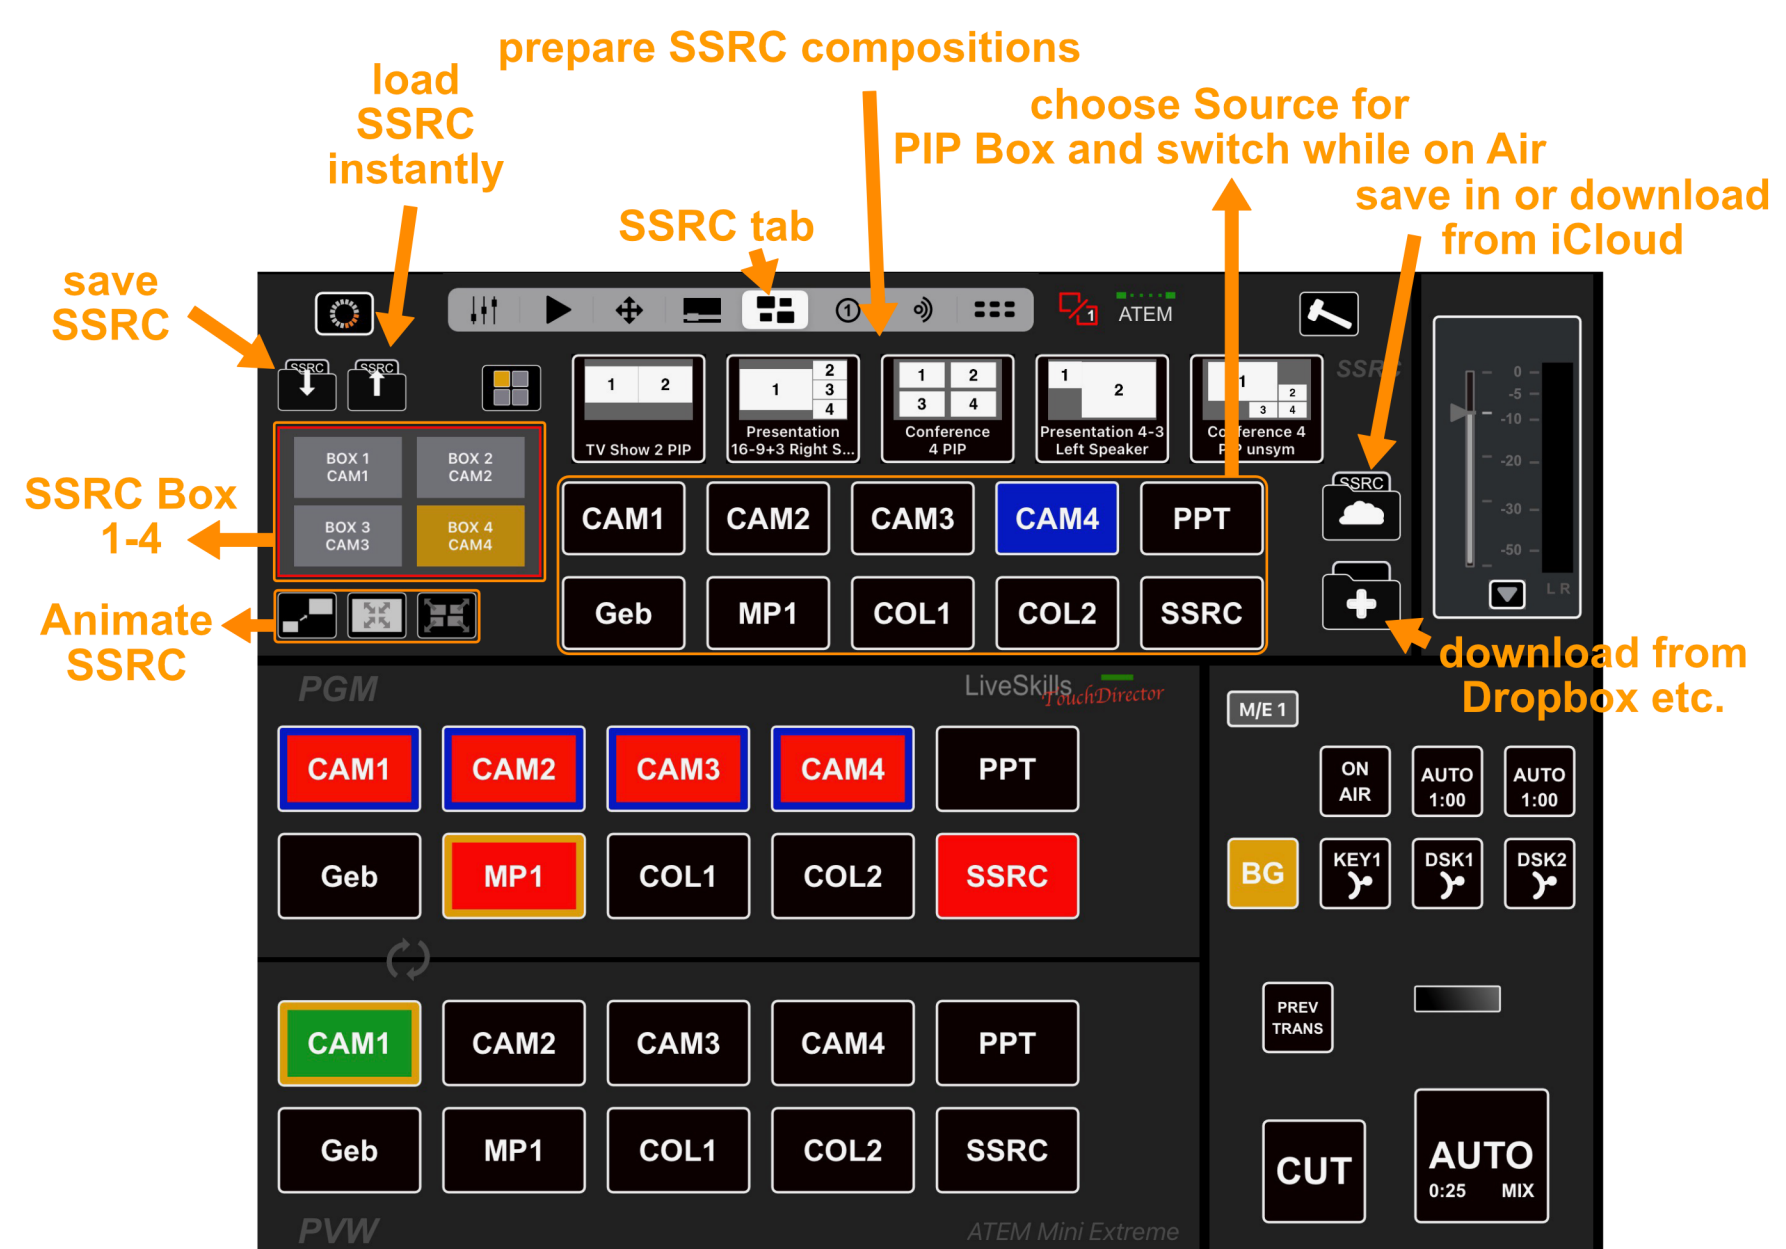

Switch your PIP Box Source live similar to a broadcast switcher

3-SWITCH

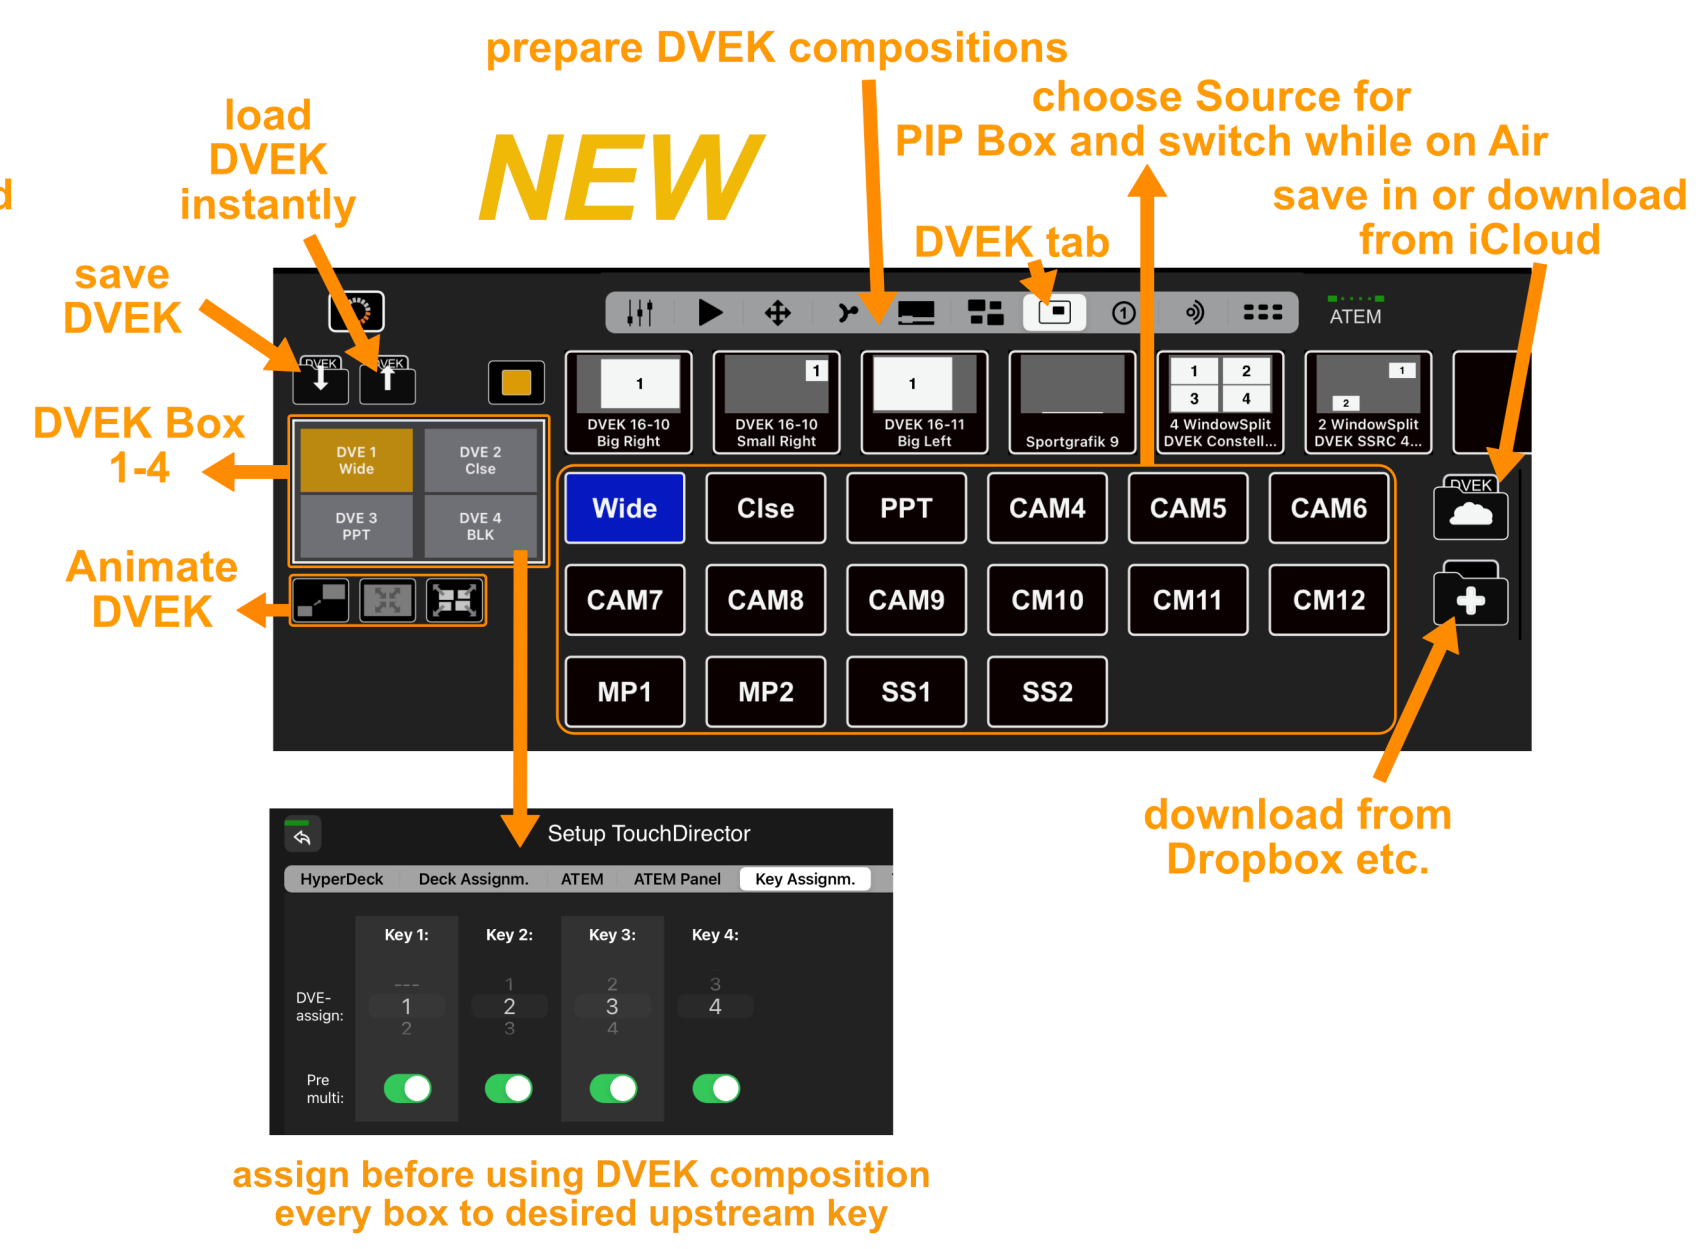

2-CONTROL

Control SuperSource composition in TouchDirector App

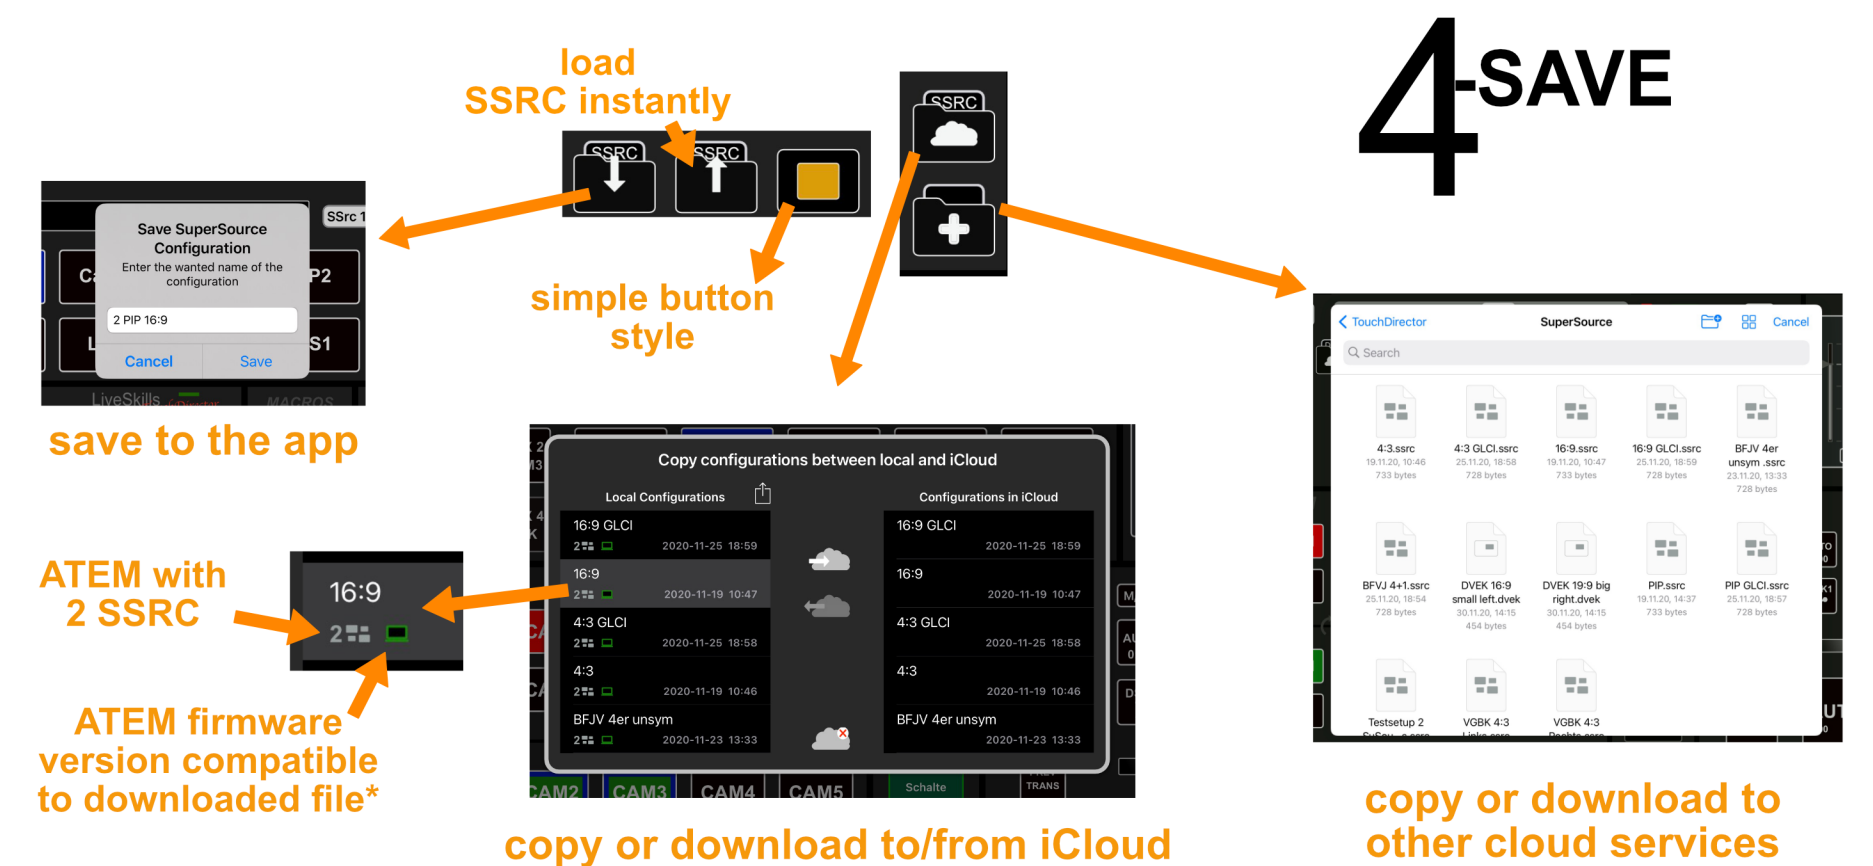

Control DVEK composition in TouchDirector App

NEW
NEW SSRC and DVE Animation Engine
 Switch live SuperSource and DVE Key box, animate it, save and restore sets as much as you like
NEW LiveSkills Box Animation Quality
 SuperSource and DVE Key Animation over LiveSkills macro execution for a very good animation quality. Best animation quality for SuperSource animation in progressive-formats, 50/60p recommended. Excellent animation quality for DVE Key box animation in all progressive and interlaced formats with LiveSkills macro execution.

load background stills for mediaplayer
 test some of our SSRC compositions

Save, download or share your SuperSource or DVEK compositions to your iCloud, Dropbox and to other ATEM users

*TouchDirector shows, whether ATEM firmware for loaded file is compatible to a file saved from a different ATEM, in this example it was an ATEM Constellation with firmware 8..
